LABORATORY INFORMATION MANAGEMENT SYSTEM (LIMS)

About the Software

The Laboratory Testing Management System (LIMS) is a centralized, digital platform for managing testing processes and documentation in industrial laboratories, supports report generation, uploading review, and downloading of machine-generated test reports in standardized NABL formats

It aims at

- ✓ Streamline report handling across labs.
- ✓ Ensure traceability, compliance, and accessibility.
- ✓ Enable role-based access for lab operators and supervisors.

APPLICABLE SECTORS

Manufacturing **Construction**

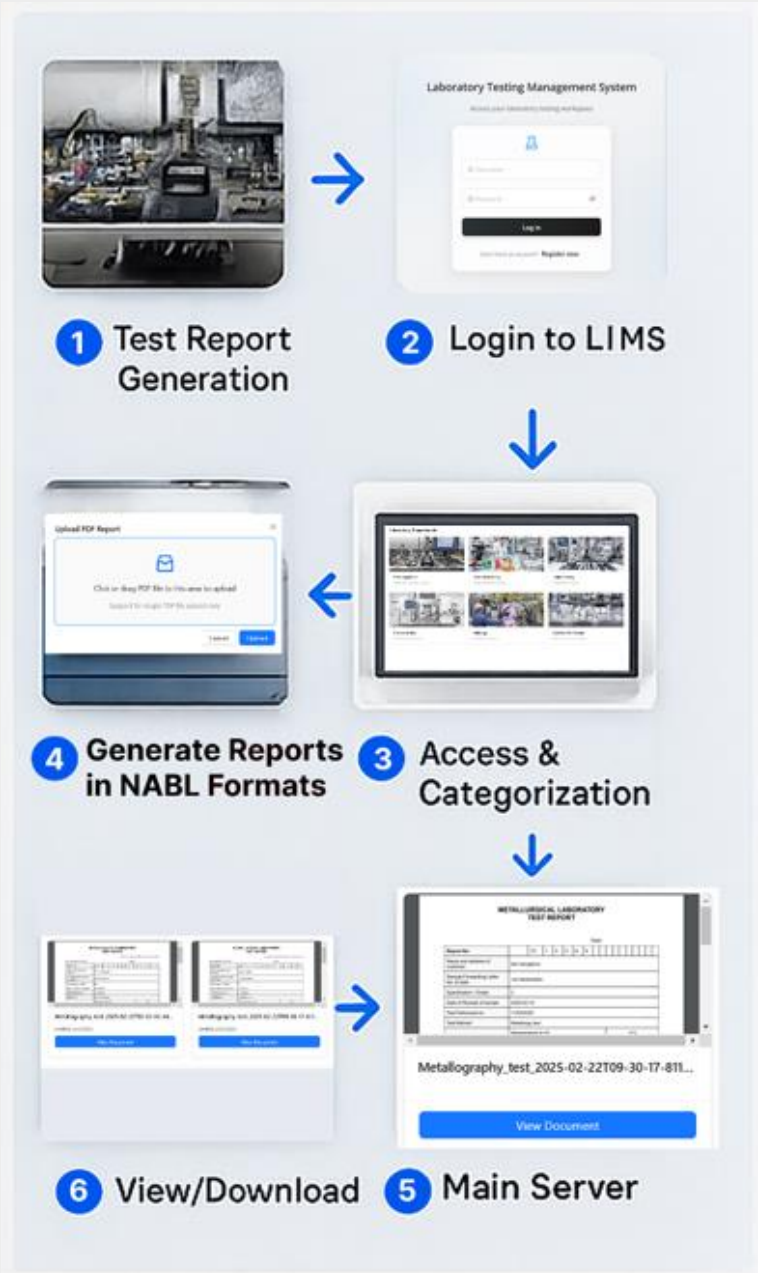

Automotive & Aerospace

Healthcare & Radiology

Chemical & Petrochemical

HOW IT WORKS

- ✓ Role-based access
- ✓ Central Repository
- ✓ Report Search & Filters

KEY FEATURES & BENEFITS

- ✓ Secure access for lab operators and supervisors
- ✓ Central Repository — Secure accessible test data
- ✓ Lab-Wise Categorization and Logical segregation
